Bangladesh Institute for Folklore and Community Development (BIFCD)

I contributed to web development and digital initiatives that support community growth and cultural preservation.

Fabred & FabTech.it

Currently serving as **Co-Founder & CTO at FabTech.it**, I lead the development of modern, responsive websites and innovative tech solutions tailored to client needs.

Executive Member at NUBCC Computer Club (Northern University Bangladesh)

Actively participating in organizing tech events, workshops, and fostering a collaborative learning environment among peers.

PROJECTS

♦ **Bangladesh Institute for Folklore and Community Development (BIFCD)**

Contributed to the development of a digital platform to preserve and showcase cultural heritage.

Key Features: Content management, responsive layout, community resource hub.

Tech Stack: HTML, CSS, JavaScript, Laravel.

♦ **FabTech.it** (*Co-Founder & CTO*)

Led development for multiple modern, responsive client websites and internal tools.

Key Features: Custom dashboards, tailored CMS, business-focused UI/UX enhancements.

Tech Stack: React.js, Laravel, MySQL, Tailwind CSS.

♦ **Social Media Web App**

Developed a full-stack social media application with user-generated content, social interaction features, and personalized experiences.

Key Features: Profile creation, multimedia posts (images, videos, text, audio), liking, commenting, sharing, authentication & authorization.

Tech Stack: React.js, Laravel, MySQL.

♦ **ChatBot Web App**

Designed and implemented a real-time chatbot with dynamic greetings and UI customization.

Key Features: Time-based greetings, dark/light theme toggler, smooth UI animations with Framer Motion.

Tech Stack: React.js, Laravel.
